

Enough with the criminalisation of the BDS movement for justice in Palestine!

Let's support right to boycott!

Why this is important:

The French High Court has upheld the conviction of activists who called for the boycott of Israeli products

The British government is implementing a new set of rules that will make it harder for local councils and other public bodies including universities to make ethical procurement or investment decisions.

The Israeli Intelligence Minister Yisrael Katz said at the largest Israeli anti-BDS conference, held on March 28 in Jerusalem, that Israel should engage in “targeted civil eliminations” of BDS “leaders” with the help of Israeli intelligence

All over the world, non-violent grassroots activists are under threat!

Petition:

Dear Mr Juncker – President of the European Commission

Dear Mrs Astola – Director General of the DG Justice and Consumers of the EC

We, the undersigned citizens of Europe are deeply alarmed by the ongoing attempts by some European governments to criminalise political activism against Israeli violations of international law.

The Israeli Intelligence Minister Yisrael Katz said at the largest Israeli anti-BDS conference, held on March 28 in Jerusalem, that Israel should engage in “targeted civil eliminations” of BDS “leaders” with the help of Israeli intelligence. That was at the very same conference at which EU Ambassador to Israel was participating alongside the settler leaders. It is seriously alarming when government ministers anywhere make such threats against human rights defenders!

We wish to express our outrage at such an incitement and attacks on civil rights and seeking your support in upholding the basic rights for European citizens for a freedom of speech and expression in support for the Palestinian people and/or other people worldwide to defend their fundamental rights.

In addition we'd like to recall the statement from the Swedish foreign ministry re-affirming basic democratic principles by saying that BDS “is a civil society movement” and that “governments should not interfere in civil society organization views”.

The International Covenant on Civil and Political Rights (ICCPR) affirms the right to hold opinions without interference and the right to freedom of expression. These rights are interrelated and are the foundation of other rights, including the rights to freedom of assembly and association. Accordingly, the Human Rights Committee has affirmed that the holding of an opinion should not be criminalized.

The European Union have to uphold its legal responsibilities, including by defending against illegitimate attacks against individuals, groups, and institutions involved in BDS movement, and to hold Israel accountable for its violations of international law.

We, the undersigned European citizens strongly believe that your role in the European Commission is of the highest importance in this case. Therefore we call on you to introduce the human rights guidelines guaranteeing freedom of speech and right to boycott and to use all other means you have in your disposal to support European citizens in their struggle to uphold basic human rights.

Your sincerely,

Signed:
